

Dreams so rich life so poor

Go away run away

Never come back

Won't stay till the end

Of my contract

Yeah the sun is shining

But do you see me smiling

Without my flagon of cider

It's hard to get fucked on a fiver

Yeah our culture's dying

It's not worth crying for

How many pennies

Do I have to find?

Before a door

Opens wide

Hey I better wake up

Hey I better wake up

Hey I better wake up

Forget what I closed my eyes for

Dreams so rich life so poor

Forget what I closed my eyes for

Three six five three six four

Please forgive & forget

All executives

Excuse me while I spend

All my benefits

At the the bottom

Of the social ladder

My zenith shatters

Press reset

On the the economy

Gotta be more

Than I wanna be

A future like

A bricked up window

Is hard to break through

You know

Hey I better wake up

Hey I better wake up

Hey I better wake up

Forget what I closed my eyes for

Dreams so rich life so poor

Forget what I closed my eyes for

Three six five three six four

We'll take them all

We'll take them all

We'll take them all

Three six five three six four
